

Juno® Track Fixtures with Alternate Adapters

Offering broader compatibility to upgrade practically any existing track installation

Has your ability to specify a Juno track fixture been limited due to incompatibility with an already installed non-Juno track system? Problem solved! Practically any track system can be upgraded utilizing high-quality Juno track fixtures.

G-type, H-type and L-type adapters are now available as standard options on a broad selection of Juno track fixture series. This selection includes virtually all LED-based track fixtures and many of our most popular low-voltage and line-voltage lampholders. These adapter options enable Juno track fixtures to be easily specified and installed on some of the most commonly used non-Juno track systems, unleashing seemingly limitless renovation opportunities. Additionally, the standard Juno Universal Track Adapter is now UL Recognized for use on compatible competitive track systems, including the ConTech® LT Series.

Juno® Track Fixtures with Alternate Adapters

Alternate adapters are available on the following Juno track fixture series – see specification sheets for additional details and restrictions.

R600L	T256L	T271L	T383L	T691
