

OLF LED

Security Floodlight Series

Security Lighting the Way You Need It!

The OLF family from Lithonia Lighting® has the largest breadth of offering from one security floodlight family. The OLF family provides a multitude of lighting, energy saving packages and control options to meet the varying needs of your residential single and multi-family applications.

Breadth of Offering

OLF offers 10 configurations providing the widest selection from a security floodlight. The family offering includes two finishes, two lumen packages, with and without photocell. Motion occupancy light-on-detection also available.

Control Choices

OLF has it all. The built-in dusk-to-dawn photocell option provides energy-savings convenience. For further savings, order without controls and wire to a central time clock or photocell. Want the lights to come on when motion is detected? Simply go with MO, motion occupancy option.

Long Life with Less Energy Used

Replace your incandescent energy-hogs with the long life, energy-saving OLF LED. OLF LED 2 and 3-head models can replace up to (2) 150W incandescent PAR lamps and offer 50,000 hours service life. These provide 16-25 times more life for one seventh of the energy of traditional sources!

Quick Facts:

- Small, compact form in a traditional shape
- Two lumen packages ranging from 2,100-3,100 lumens
- OLF 2RH replaces up to (2) 90W PAR lamps
- OLF 3RH replaces up to (2) 150W PAR lamps
- Suitable for wall or ceiling mount
- Adjustable heads can be aimed without the use of tools
- Visors are removable
