

Trial Installation Program (TIP)

featuring LightFlex™ Tunable-White LED Tubular Daylighting System

How the TIP Program works:

- ▶ Sunoptics® will provide one out-of-the-box LightFlex LED Daylighting System (SLFTL) with Signature™ Series skylight and nLight® wired wall pod per customer, for installation with an approved purchase order.
- ▶ You will have 60 days to evaluate the performance of the LightFlex LED system. The clock starts when the product is shipped from Sunoptics.
- ▶ Should you not be 100% satisfied with the LightFlex LED system, you can request a credit equal to the purchase price of the LightFlex LED system. No risk!

Rules

- ▶ Customer must receive approval from authorized sales representative of Sunoptics prior to order
- ▶ Order must be marked – Trial Installation Program (TIP)
- ▶ Program available one per end-user customer, unless prior approval is provided by Sunoptics
- ▶ Credit applies only to the product material supplied. TIP excludes all freight, labor and other expenses
- ▶ Installation labor is not included

Seeing is believing. Get Started Today!

Take advantage of this program by contacting Sunoptics today.
